Re: Supporting Documentation – Bluenose-East Caribou Herd Joint Management Proposal

On December 15, 2015, the Tłıchq Government (TG) and Department of Environment & Natural Resources (ENR), Government of Northwest Territories submitted the “*Joint Proposal on Management Actions for Bluenose-East Caribou 2016-2019*” to the Wek'èezhìi Renewable Resources Board (WRRB) outlining proposed management actions for the Bluenose-East Caribou Herd in Wek'èezhìi. The Board opened the 2016 Bluenose-East Caribou Herd Proceeding on January 18, 2016.

As per Section 12.3.11 of the Tłıchq Agreement, the WRRB is required to establish and maintain a public file for information received in order to make its determinations and recommendations. On January 18, 2016, the WRRB's online public registry was opened for the 2016 Bluenose-East Caribou Herd Proceeding: <http://www.wrrb.ca/public-information/public-registry>.

In order to ensure that all Parties to the 2016 Bluenose-East Caribou Herd Proceeding have relevant documentation available on the Public Registry for referencing, a list of supporting documentation is attached for review. **The WRRB requests that all Parties review the attached list and consent to posting on the Public Registry by no later than 5:00 p.m. on February 9, 2016.** If no response is received, the Board will consider the list acceptable by the Parties. Posting will occur on February 10, 2016. The WRRB may post additional documentation to the Public Registry up to and including March 7, 2016.

If you have any questions, please contact our office at (867) 873-5740 or jpellissey@wrrb.ca.

Sincerely,

Jonas Lafferty
Interim Chair
