

Northwest Territories Environment and Natural Resources

JAN 27 2015

Mr. J. Grant Pryznyk, Acting Chair  
Wek'èezhì Renewable Resources Board  
102A, 4504 49<sup>th</sup> Avenue  
Yellowknife, NT  
X1A 1A7

*Grant*  
Dear Mr. ~~Pryznyk~~:

**GNWT Management Proposal: Mobile Core Bathurst Caribou Conservation Area**

Thank you for the quick response to the Mobile Core Bathurst Caribou Conservation Area management proposal submitted and presented to the Wek'èezhì Renewable Resources Board (WRRB) on January 20, 2015 and January 22, 2015.

Your support and rapid response in this important matter is reflective of the WRRB's commitment to wildlife conservation and the use of the precautionary principle.

The Government of the Northwest Territories (GNWT) agrees with the WRRB on the importance of educating Tł'cho communities and all Northwest Territories (NWT) citizens about these key caribou management issues and will commit to presenting this message collaboratively at community workshops and to using public media to deliver clear and concise messages on caribou conservation to all residents of the NWT.

We are also committed to working cooperatively with the WRRB and the Tł'cho government on this important issue.

Sincerely,

*J. Michael Miltenberger*
