Attention: Mr. Grant Pryznyk, Interim Chair
Ms. Judy Snortland, Executive Director

Dear Sirs,

Re Joint Caribou Proposal

Pursuant to your letter dated June 4, 2010, I am writing with respect to the hearing schedule for the caribou proposal.

At the outset, it is important to note that a) I strongly object to this new proposal and b) intervener conditions for the adjournment of this hearing in March 2010 were not met, particularly regarding intervener funding and the disclosure of critical information for this hearing, including collaring information. The collaring information and an understanding of the GNWT's collaring system is critical/fundamental to this hearing and any review of any caribou proposal and management practice. This information has not been disclosed.

I am in the process of obtaining legal counsel with respect to matters, including this new proposal, the process to date and the process going forward. As such, I am unable to comment at this time regarding a schedule going forward. I reserve all rights to comment about the caribou proposal, the hearing process and all related matters.

Sincerely,

Karen McMaster
