Wek'èezhìi Renewable Resources Board
102 A 4504 49th Avenue
Yellowknife, NT X1A 1A7

Attention: Grant Pryznyk, Interim Chair

By email

Dear Chairman:

Joint Proposal on Caribou Management Actions in Wek'èezhìi – Renewed Request for Intervener Status

On December 2, 2009 the Chamber of Mines made an initial request for intervener status at the public hearings to be held regarding the above captioned matter. On December 4, 2009 you responded to our request to indicate that it was denied, without reasons being provided.

Following the Board's decision to postpone the hearings to mid February, we wrote again on December 18, 2009 to renew our request for intervener status.

Given the imminent deadline for interveners to file submissions, we respectfully request that you provide your response to our renewed request for intervener status as soon as possible. We further request that your response include reasons for your original decision of December 4, 2009.

Yours truly,

John Kearney
President
