**Re: Request for Collar Data**

During our 29 June 2010 meeting, the Wek'èezhì Renewable Resources Board (WRRB) reviewed your 24 & 29 June 2010 requests to have the Government of the Northwest Territories (GNWT) provide raw caribou collar data transferred to a map for posting to the Board's public registry.

The Board is aware that raw caribou collar data has been made available to the intervenors by the Department of Environment and Natural Resources, GNWT in May 2010. The data provided is comprehensive and has been available for analysis for over five weeks. Additional collaring information is not, in the Board's view, necessary. Therefore, the WRRB will not approve the request to have the GNWT provide additional collar data.

If you require additional information, please contact our office at (867) 873-5740 or [jsnortland@wrrb.ca](mailto:jsnortland@wrrb.ca).

Sincerely,

A handwritten signature in blue ink that reads "J. Grant Pryznyk".

J. Grant Pryznyk  
Interim Chair
