Re: Request for Extension for Response to All Information Requests

Dear Sir:

The Wek'èezhìi Renewable Resources Board (WRRB or "the Board") has reviewed Tlicho Government's request to extend the information request response date to November 18, 2009 for all information requests.

The Board did approve your request.

Please ensure the responses are sent electronically by email attachment no later than November 18, 2009, so that they may be posted on the registry on that day. There are many interested people who wish to review the responses and prepare for their part in the Proceeding.

If you have any questions with respect to the above, please do not hesitate to call our office at 873-5740.

Sincerely,

Original signed by
Grant Pryznyk
Interim Chair
