RE: Muskox Surveys North Slave Region February – March 2020`

Dear Jan Adamczewski & Judy Williams,

The Wek'èezhì Renewable Resources Board (WRRB) has reviewed your Wildlife Research Permit application for the Muskox Photo Composition Survey, East Arm of Great Slave Lake, March 2020. The WRRB understands that this project proposes a survey in mid-late March 2020 using similar methods to the 2018 survey. The Board understands that this survey will serve to monitor the demography and approximate abundance and distribution of muskoxen in the East Arm area.

The WRRB has no concerns with the project as presented in your application and looks forward to receiving results from the upcoming field season. We ask that our office be contacted if there is any opportunity for Board or staff involvement in your work. Please feel free to give us a call with any questions you might have.

Sincerely,

A handwritten signature in black ink that reads "Jody Pellissey". The signature is written in a cursive style with a long, sweeping tail on the "y".

Jody Pellissey
Executive Director

Cc Joseph Judas, Chair, Wek'èezhì Renewable Resources Board
